Cash services - convoy lists

Please note that the Bank plans to introduce a change in the distribution of convoy lists, which are sent to you by the Bank and are the basis for the verification of the collectors in the process of handling cash deposits and withdrawals.

New lists will apply to all of your locations, serviced by the sorting facilities specified on the document (your addresses will not be included on the new lists).

This change means you will receive updates faster.
Convenient and efficient management of Client Profile Settings
- CitiDirect BE Client Security Manager

We do our best to ensure that your interactions with the Bank are as easy and fast as possible. The CitiDirect BE Client Security Manager functionality enables the Clients, among other things, to manage the users themselves, as an alternative to asking the Bank to do this for them in a paper form. Combined with the eForms platform, the functionality reduces the need to send paper instructions to the Bank to the minimum.

CitiDirect BE Client Security Manager:
✓ Creates and deletes Users.
✓ Assigns, modifies and cancels entitlements of Users relating to operations on the accounts of the Client. The Administrator may assign, for example, such entitlements as the right to create, authorize and release transactions (i.e. the Administrator may control transaction flows on an account).
✓ May configure various settings on the Profile in CitiDirect BE, e.g. connection with an accounting system / SAP.
✓ May temporarily block a User in the system (e.g. for security reasons after a SafeWord card is lost or as part of compulsory “no-signing-on” periods).
✓ May add a new currency or a new payment method allowed for use on the Profile.
✓ Security is always ensured by the requirement that changes must be implemented by at least two persons (each change requires verification and authorization).
✓ May generate reports that cover entitlements, inactive Users, etc.

Details of the Client Security Manager module can be found here.

We recommend submitting an application to activate the Client Security Manager functionality on your account. (The application form can be found here).

We also invite you to join our CitiDirect BE Client Security Manager training. If you would like to schedule a training session, please contact your Account Manager.

We also invite you to use our new innovative solution: the MobilePASS app. Its advantages include:
✓ More convenient, “on the spot” log-in process using your smartphone.
✓ Friendly and secure log-in process using app-generated numeric passwords.
✓ Possibility to use additional security features protecting the smartphone against unauthorized access, e.g. using PIN, password, pattern or fingerprint.
✓ Possibility to add new users quickly without the need to wait for the delivery of new physical tokens.
