Thank you very much for your trust and for choosing our Bank to make SEPA transfer orders. Lately, we have noted more SEPA payments carried out through our Bank. Please be reminded that in order to effectively make a SEPA order in our CitiDirect BE system, you should choose the SEPA payment method and fill out a form in accordance with the instructions below.

Pursuant to the European SEPA rules, the only admissible fee payment option is the „Shared” option – therefore, the Select Cost Option field cannot be used in CitiDirect BE for this type of orders.

Electronic documentation workflow based on a qualified electronic signature

We are pleased to inform you that we have introduced another solution to facilitate efficient contact with the Bank in remote working conditions. Electronic documentation workflow based on a qualified electronic signature will allow you to maintain easy access to our services, without having to send paper documents and personal contacts. A qualified electronic signature, in accordance with the requirements of the Civil Code and the EU eIDAS Regulation, is equivalent to a handwritten signature.

SEPA Payments vs. EUR Foreign Payments Sent To Recipients in the European Union
All the instructions are included in the user’s manual [CitiDirect BE – Payments >>](#).

Making SEPA orders by means of the Foreign Transfer payment method may result in the Bank’s longer execution time due to the possibility of errors made by the user, which will require additional explanation. Therefore, we recommend that you use the special SEPA form.

These guidelines also refer to the import of payments from the financial and accounting systems to CitiDirect BE or CitiConnect. Given the fact that it is a system connection, we encourage you to contact our Technical Support Team whose consultants will explain to you how to properly set up your SEPA order import, so that there are no mistakes and extended order execution time.
