

We are pleased to announce the appointment of Hoosen Omar as the Durban Branch Manager and Senior Relationship Manager, taking over from Tony Mcree who has decided to pursue a career opportunity outside of Citi. We thank Tony for his great contribution in building a solid portfolio in Durban, and in particular his efforts on the Unilever relationship - we wish him well in his future endeavours.

Hoosen joined Citi in 2001 in Finance and moved to the Corporate Bank as a Business Manager in 2004. In February this year, he assumed a wider responsibility as Business Manager for Africa Commercial Bank, a role which has included oversight of Citivision and CIS and the implementation of Cognos throughout Africa.

He previously worked at FirstRand Bank for 13 years where he held several positions in the Finance team within Treasury, Corporate Bank and International Banking. He has also worked at RAD Investment Bank where he held the position of ALCO Manager and MIS Manager.

Hoosen brings strong analytical skills, market awareness, client and product knowledge and good relationships with Corporate and Commercial Bank Heads throughout Africa as well as Product Partners. We thank him for his positive contribution in his Commercial Bank Business Manager role and wish him every success in his new challenge in Durban.
